LM1012TTS TABLE-TOP LABEL APPLICATOR

The LabelMill 1012TTS is a semi-automatic table-top label applicator which features fast, easy changeover to meet a variety of labeling needs. Using the unique rail-mounted modules, the LabelMill 1012TTS can serve as a label dispenser, tamp applicator, round product applicator, and flag applicator. Because this unit can do them all, there is no need for additional units for each type of application. Change over from one application to another in five minutes or less. The LM1012TTS is built for heavy-duty industrial use. The integrated operator interface makes change over and control adjustments quick and easy!
